Attention: Stakeholder

**RE: WHEATLAND WIND PROJECT UPDATE**

Dear Stakeholder,

Wheatland Wind Project LP (WWLP) is pleased to provide the following project update. As you are aware, WWLP submitted applications to the Alberta Utilities Commission (AUC) on May 10, 2017 and filed a finalized layout to that application with supporting documentation on May 25, 2018 seeking approval of a power plant, substation, and interconnection equipment. On September 7, 2018, the AUC granted approvals to WWLP to construct and operate the power plant and substation, subject to certain terms and conditions.

As WWLP actively continues to seek viable power purchase agreement opportunities to allow the project to proceed towards construction, WWLP would like to update stakeholders on the revised project development schedule as shown below:

<b><u>EXPECTED TIMELINE</u></b>	<b><u>PROJECT MILESTONE</u></b>
Q1 2020 – Q4 2020	STAKEHOLDER CONSULTATION AND AUC AMENDMENTS FOR TURBINE TECHNOLOGY AND AUC APPROVAL
Q1 2020 – Q1 2021	CONTINUE PURSUING POWER PURCHASE AGREEMENTS
Q1 2021 – Q3 2021	OBTAIN COUNTY DEVELOPMENT PERMITS
Q3 2021	START PROJECT CONSTRUCTION
Q4 2022	COMMERCIAL OPERATION DATE

WWLP remains committed to ongoing stakeholder and community engagement and welcomes feedback from all stakeholders. WWLP also invites any local organization or community program to apply for sponsorship and funding through WWLP's community development fund. Should you have or know of an organization or program with needs that would benefit from sponsorship, please contact Dan Tocher at 403-607-1308.

WWLP wants to thank you for your feedback and continued support of the Wheatland Wind Project and we look forward to the continuation of the project development as outlined in the above revised project schedule. WWLP will continue to inform stakeholders of any updates to the Wheatland Wind Project in the future.

To learn more about the application and review process by the AUC, please contact them at 780-427-4903 or toll-free by dialing 310-000 before the number. For information about the Wheatland Wind Project, please contact me directly at the information provided below.

Sincerely,

Dan Tocher  
Stakeholder Relations Manager
